ABOUT NATIONAL PEST MANAGEMENT ASSOCIATION

The National Pest Management Association (NPMA), a nonprofit organization with more than 5,500 members from around the world, was established in 1933 to support the pest management industry's commitment to the protection of public health, food and property from the diseases and dangers of pests.

Dear Public Service Director,

This winter has brought some unusual weather to different parts of the country. For example, the typically sunny Southern California has been hit with massive snowstorms while some areas of the Northeast, which usually face harsh winter weather, are enjoying record warmth and minimal snow. These types of changes can impact how pests affect our environment and surroundings. Colder temperatures will cause rodents to seek shelter indoors which can lead to pest problems in our homes. A warmer-than-normal winter can cause pests like ticks, mosquitoes and cockroaches to get an early start to their peak season. All of this makes it important for us to remain vigilant about protecting our health and safety from disease-carrying pests, especially as spring approaches and we begin to spend more time outdoors. A number of pests are capable of transmitting diseases to humans and pose significant threats to our health and well-being.

Ticks found in tall grass around the home can spread Lyme disease and other illnesses which can lead to chronic health issues. The Centers for Disease Control and Prevention (CDC) estimates that nearly half a million people across the country are diagnosed with Lyme disease each year. Allergens left behind by dust mites, roaches and rodents are a major driver of asthma attacks, especially in children. Mosquitoes spread West Nile virus and many other diseases. Additionally, they can breed in standing water around the home.

Awareness and education are critical for safeguarding our communities from pest-related health threats. Your station can help by airing new public service announcement (PSA), titled "**Abstract**" (:30). This timely PSA helps educate audiences about the symptoms and harmful effects caused by pest-related health conditions. The PSA also includes an informational website, PestWorld.org, which offers further details and educational resources. **We ask that you please air this PSA as soon and as often as possible. There is no end date for use.**

The NPMA is a nonprofit organization committed to the protection of public health, food and property from the diseases and dangers posed by common household pests. The association conducts public education and awareness programs to promote increased vigilance around the home.

If you have any questions, please contact our distribution representative, Holly Mulé (212-624-9196; hmule@c360m.com). As always, thank you in advance for your support of our public service campaigns.

Respectfully,

Jim Fredericks, Ph.D
Senior Vice President of Public Affairs
National Pest Management Association

Abstract

It's important not to underestimate the health risks posed by pests. Pests can carry a number of dangerous diseases that can cause serious health issues and threaten our well-being. This PSA highlights the importance of protecting our loved ones from pest-related illnesses. Additional information is available at [PestWorld.org](https://www.pestworld.org).

To learn more, please listen to our:30 PSA titled "**Abstract**". We ask that you please air our PSAs as soon and as often as possible. **This PSA has no end date for use.**

Additional PSAs are available for review and download at <http://www.c360m.com/PSAConnect/npma/>

Thank you for your consideration.

Dear Applicant:

Based on information supplied, and assuming your operations will be as stated in your application for recognition of exemption, we have determined you are exempt from Federal income tax under section 501(a) of the Internal Revenue Code as an organization described in the section indicated above.

Unless specifically excepted, you are liable for taxes under the Federal Insurance Contributions Act (social security taxes) for each employee to whom you pay \$100 or more during a calendar year. And, unless excepted, you are also liable for tax under the Federal Unemployment Tax Act for each employee to whom you pay \$50 or more during a calendar quarter if, during the current or preceding calendar year, you had one or more employees at any time in each of 20 calendar weeks or you paid wages of \$1,500 or more in any calendar quarter. If you have any questions about excise, employment, or other Federal taxes, please address them to this office.

If your sources of support, or your purposes, character, or method of operation change, please let us know so we can consider the effect of the change on your exempt status. In the case of an amendment to your organizational document or bylaws, please send us a copy of the amended document or bylaws. Also, you should inform us of all changes in your name or address.

In the heading of this letter we have indicated whether you must file Form 990, Return of Organization Exempt From Income Tax. If Yes is indicated, you are required to file Form 990 only if your gross receipts each year are normally more than \$25,000. However, if you receive a Form 990 package in the mail, please file the return even if you do not exceed the gross receipts test. If you are not required to file, simply attach the label provided, check the box in the heading to indicate that your annual gross receipts are normally \$25,000 or less, and sign the return.

If a return is required, it must be filed by the 15th day of the fifth
