Dear Public Service Director,

As we make our way through the world, we strive to live our best life. We grow, change and thrive. However, we may have questions along the way, especially as we age.

USAgging, a national nonprofit dedicated to serving older adults, people with disabilities and care providers, is committed to building a society that values and supports people as they age. In order to help older adults live with optimal health, well-being, independence and dignity in their homes and communities, USAging is providing a new public service campaign that helps inform audiences about Eldercare Locator, a service to connect older Americans and their care providers with trustworthy, local support resources.

Since 1991, The Eldercare Locator has been linking those who need assistance with state and local agencies on aging, as well as community-based organizations that serve older adults and their advocates. The Eldercare Locator can help connect you to the support you need for assistance related to meals, home care, transportation and more.

We hope that you will help inform your community about the benefits of this service by airing the new PSA titled "**Eldercare Locator**" (:60, :30, :15). The PSA demonstrates how this important tool provides assistance to those who are aging by connecting them with the support they require. The PSA also encourages audiences to call 1-800-677-1116 for more information. We hope that you will air this PSA, which has **no end date for use**, as soon and as often as possible.

For any questions regarding the PSA, please contact our distribution representative, Holly Mule, at Connect360 Multimedia (e-mail: hmule@c360m.com; ph: 212-624-9196).

Thank you in advance for your support of this public service campaign.

Joellen Leavelle
Director, Communications
